MONEY, STOCKS AND GRAIN

Stronger Demand in London for American Securities Stimulates Trade.

Transactions at New York Reached a Heavy

Total at Indianapolis Business is Active

and Prices Firm in All but Cereals.

THE BOND MARKET.

Railroad Issues at Higher Figures and Holding

Strong.

At New York yesterday money on call

was easier, ranging from 5 to 6, the last

loan being made at 5 and closing offered at

5 per cent.

Prime mercantile paper 5 1/2 per cent.

Sterling exchange was weak, with actual

business in bankers' bills at \$4.84 for sixty

days and \$4.86 for demand.

The total sales of stocks were 35,000

shares, including the following: Atchafon,

19,870; Missouri Pacific, 4,410; Northern

Pacific preferred, 4,230; New England, 101,000;

Reading, 44,230; St. Paul, 58,730; Union

Pacific, 3,910.

Advices from London of a strong market

there for American securities, together

with the unexpectedly favorable statement

of the clearing-house banks on Saturday

and the heavy traffic reported by officials

of Western money markets, led to a very

buoyant speculation at the New York Stock

Exchange yesterday. The transactions

reached the unusually heavy total of 41,100

shares, of which 35,000 were listed and

5,100 unlisted. The general market closed

active and strong at the top figures.

Railroad bonds were strong in tone.

The dealings footed up \$1,000,000. Prices as a

rule were higher, the advances ranging

from 1/4 to 1/2 per cent. At the special meeting

of the stockholders of the Western

Union Telegraph Company today the

increase in the capital stock of \$15,000,000

making the total \$100,000,000 was ratified.

An official says there is no truth in the report

that the company contemplates the

purchase of the Montreal Telegraph

Company of Canada.

CHICAGO, Oct. 23.—Notwithstanding

the biggest increase in the visible supply

that it has been claimed the fall-crop

Provisions, too, were strong, but

much profit-grabbing by the bulls kept

the quotations down at the close to about

Saturday night's figures.

The conditions were in the main far from

bullish in wheat. Cables were lower, the

local receipts about three hundred cars

above the estimate, owing to lighter Sun-

day inspection, and the weather was rain-

y, but it has been claimed the fall-crop

wheat needed, but it was argued that the

wet weather would cut off receipts and

was pretty free covering on the break

which took place Saturday as well as

rather generous investment buying. An

other strengthening factor was the con-

dition of the reported big failure in Paris

market, Mitchell, Logan, Lipp, Bros.,

and others, who were buyers, with

Partridge and Boyden leading the selling.

The market weakened some during the last

hour, mainly on the part of the bulls,

but the close was within 1/4c of the
